Special Interest Groups - Annual Report 2025

Please submit by 23rd January 2026

Group Details

Special Interest Group Name

Kidney SIG

Name

Kristin Veighey

Name

Date

30/12/2025

Annual Report

As a rough guide for maximum number of words – 400 but if you wish to write a longer report this is fine.

Please complete the categories below:

Annual Report

Activities

The SIG is a small group and interfaces with other associations such as the UK Kidney Association which is MDT and includes research and also QI. As such much of this year has been spent trying to define the working relationship between these groups, to avoid members having to attend lots of different meetings.

Future Plans

To affiliate with the UK Kidney Association to create an MDT primary care SIG which the SAPC Kidney SIG can feed into and feed out of. To develop a newsletter to share knowledge and events.

Evidence of impact of the SIG

There is a building community of primary care kidney research, led by the multidisciplinary and integrated team. Team members have published and presented widely, and have also been invited to contribute at RCGP, UK Kidney Week, Parliamentary Round Tables and to policy documents and news items.

Outcomes from SIG meeting at last SAPC ASM (if held)

Not held due to timing and low attendance numbers.

How affiliation with SAPC has helped the SIG

Helped to raise the profile of kidney research in primary care and has helped to connect people across the UK in what is inevitably a small field.
