**Outcomes from SIG meeting at last SAPC ASM (if held)**

Held and well attended, discussions around primary care site participation and women's health trials and PICs vs recruiting sites. Discussion around women's health hubs. Individual members shared experiences of their own research and asked for ideas and problem solving.

**How affiliation with SAPC has helped the SIG**

Having the ability to advertise on the Website up coming events. A trusted society that gives the SIG a platform for membership. Ability to have the face to face meeting at the ASM.
