

Day 1: Monday 31st March 2025

10.00 - 13.00 Registration		
12.00 - 13.00 Lunch – Dining Hall		
13.00 - 13.10 Welcome and Introduction from Chair: Professor Stavros Petrou		
O'REILLY THEATRE	DOUGLAS PRICE ROOM	SEMINAR ROOM ONE
<p>13.15 - 14.30 SESSION ONE</p> <p>Antimicrobial Stewardship</p> <p>Antibiotic prescribing and use in United Kingdom general practices in socio-economically deprived areas: A Critical Interpretive Synthesis. (Anthony Bell – Oxford)</p> <p>Point-of-care testing to safely reduce antibiotic prescribing for RTIs in Primary Care: Results from the PRUDENCE Trial (Emma Harper - Oxford)</p> <p>How do point-of-care tests in European primary care influence antibiotic prescribing? A mixed methods process evaluation with patients and clinicians (Marta Wanat – Oxford)</p>	<p>13.15 - 14.30 SESSION ONE</p> <p>Big Data</p> <p>Uptake and safety of Sotrovimab for prevention of severe COVID-19 and its safety in the community in England: cohort and self-controlled case series study (Andrew Snelling – Oxford)</p> <p>Associations between comorbid cardiometabolic and mental health conditions and mortality in 12 million English primary care records (Jenny Cooper - Birmingham)</p> <p>Adiposity and risk of infectious disease mortality in Mexican adults (Lukman Lawal - Oxford)</p>	<p>13.15 - 14.30 SESSION ONE</p> <p>Hormone Replacement Therapy</p> <p>Association of comorbidities with Hormone Replacement Therapy uptake: A systematic review and meta-analysis (Deborah Allen – Oxford)</p> <p>Association of education and ethnicity with HRT uptake: A systematic review and meta-analysis (Eve Tranter - Oxford)</p> <p>Association of behavioural factors with HRT uptake: A systematic review and meta-analysis (Grace Glover - Oxford)</p> <p>Inequalities in hormone replacement therapy prescribing in UK primary care: An analysis of electronic health records of 2</p>

<p>Clinician preferences related to rapid microbiological point-of-care-testing in primary care for respiratory tract infections: a discrete choice experiment from the RAPID-Test trial (Paul Mitchell - Bristol)</p> <p>Views of healthcare professionals and patients on delayed antibiotic prescriptions: A systematic review of qualitative studies (Rovinya Hettiarachchi – Southampton)</p>	<p>Trends of VTE after total joint replacement in the UK after the introduction of NICE guidelines (Subhashisa Swain - Oxford)</p> <p>Lessons from the English primary care sentinel network's response to the COVID-19 pandemic (Xinchun Gu- Oxford)</p>	<p>million women 2013-2023 (Jennifer Hirst - Oxford)</p> <p>Discontinuation of hormone replacement therapy (HRT): A systematic review (Sarah Bunnewell - Warwick)</p>
<p>14.35 - 15.15 SESSION TWO</p> <p>Clinical Uncertainty about Cancer</p> <p>To refer, or not to refer for suspected cancer? A qualitative study with general practitioners in England (Amy Chinner - Exeter)</p> <p>Early cancer detection in community pharmacies in deprived areas: An online survey (Judith Konya - Exeter)</p> <p>CASNET2: Evaluation of an Electronic Safety Netting (E-SN) cancer toolkit for the primary care electronic health record (Susannah Fleming – Oxford)</p>	<p>14.35 - 15.15 SESSION TWO</p> <p>Communicating with patients (1)</p> <p>The management of clinical risk during contacts with more vulnerable patients in urgent primary care: An analysis of GP OOH case record data (Rebecca Barnes - Oxford)</p> <p>Primary care practitioners' views and experiences of completing and implementing EMPathicO training in everyday practice: A qualitative study (Emma Teasdale - Southampton)</p> <p>Talking in Primary Care (TIP): A cluster-randomised controlled trial in UK primary care to assess clinical and cost effectiveness of communication skills e-learning for practitioners on patients' musculoskeletal pain and enablement (Hazel Everitt - Southampton)</p>	<p>14.35 - 15.15 SESSION TWO</p> <p>Multiple Long-Term Conditions and Polypharmacy (1)</p> <p>Investigating the factors that influence the willingness of older adults and their informal caregivers to deprescribe medication in primary care: A dyadic interview study (Rebecca Garnett - Oxford)</p> <p>Exploring the prevalence and impact of co-existing conditions in people with asthma in primary care: cross-sectional analysis of baseline data from the DEFINE trial (Tom Diffey - Southampton)</p> <p>How do pharmacists navigate clinical uncertainty when reviewing polypharmacy in general practice? A critical literature review (Tomazo Kallis - Exeter)</p>

15:15 - 15.40 Afternoon Coffee and Poster Viewing (Arco Building)		
15.45 - 16.30 Lucy Potter (University of Bristol): Equitable access to primary care		
<p>16.35-17.45 SESSION THREE</p> <p>Inequitable care (1)</p> <p>Sickness absence in the working age population in England before and during the latter part of the COVID-19 pandemic: A retrospective cohort study using primary care medical certificate data (Guan Naijie - Birmingham)</p> <p>Efficiency and equity of community-based falls prevention pathways: A model-based health economic evaluation (Joseph Kwon - Oxford)</p> <p>Blood cancer survival and inequalities in England, Northern Ireland and Scotland (Janice Hoang - Oxford)</p> <p>Exploring the barriers and facilitators to attending cancer testing appointments for patients with anxiety and/or depression (Sarah Price - Exeter)</p>	<p>16.35-17.45 SESSION THREE</p> <p>Prognostic, Diagnostic, and Monitoring Tools (1)</p> <p>Cancer, serious disease diagnoses, and clinically significant incidental findings in the first six years of the SCAN pathway (Claire Friedemann Smith - Oxford)</p> <p>Adaptive risk stratification for liver cancer – preliminary findings (Emma Mi - Oxford)</p> <p>Prostate specific antigen (PSA) retesting intervals and trends in England: A retrospective cohort study of over 10 million patients between 2000 – 2018 (Kiana Collins - Oxford)</p> <p>Urinary biomarker analysis in asymptomatic and symptomatic urine samples from care home residents: Early results from the DISCO UTI study (Abi Moore)</p>	<p>16.35-17.45 SESSION THREE</p> <p>Under-researched conditions</p> <p>Identification and management of bulimia nervosa and binge eating disorder in primary care: A systematic review of qualitative research (Stella Kozmer - Exeter)</p> <p>Patient and primary care practitioner’s perspectives of primary care consultations relating to menstrual problems: A meta-ethnography (Katie Read - Southampton)</p> <p>Navigating ‘normal’ menstrual pain: Adolescent reflections on dysmenorrhea and healthcare seeking (Sharon Dixon - Oxford)</p> <p>Accumulative experiences: Help-seeking and help-providing for recurrent vulvovaginal thrush (Tori Ford - Oxford)</p>

17.45 - 18.30 Workshops and Poster Viewing

Posters: Arco Building

Creative Submissions: Music Room

Workshops

SEMINAR ROOM 1 Simon de Lusignan: Developing primary care professionals to be data custodians: Why high-quality primary care data quality and virology sampling are needed to inform health protection in an age of increased patient access to records

SEMINAR ROOM 2 Debra Westlake: "Coming here has completely changed my life.": Storytelling as a method for exploring the benefits of prescribing cultural activities in the TOUS study (Tailoring cultural offers with and for diverse older users of social prescribing)

SEMINAR ROOM 3 - Jo Butterworth: Enhancing equality, diversity and inclusivity in the academic primary care workforce

SEMINAR ROOM 4 - Lynn Tatnell: PPI skills and experiences workshop

EXPLORE OXFORD QUARTERS – Treasure Hunt around Oxford city centre (meet at registration desk)

18.30 - 19.30 Drinks Reception & Jazz Quartet

19:30 - 21:00 Keble College Banquet Dinner – Dining Hall

21:00 Keble College Bar (DISCO) – Hayward Quad

DAY 2: Tuesday 1st April 2025

07.15 - 08.00 Run in the University Parks		
08.30 - 09.00 Morning Coffee		
O'REILLY THEATRE	DOUGLAS PRICE ROOM	SEMINAR ROOM ONE
<p>9.00 - 10.30 SESSION FOUR</p> <p>Inequitable care (2)</p> <p>Understanding social prescribing in areas with double disadvantage (Amadea Turk - Oxford)</p> <p>“Of course there was stigma”: Experiences of homeless patients in secondary care in Scotland (Anna Gordon -Bristol)</p> <p>Disparities in MenACWY and HPV vaccination uptake in adolescents before and after the COVID-19 pandemic (Emma Copland)</p> <p>Primary care youth mental health hubs in the UK and Australia (Isabel Hanson - Oxford)</p> <p>Inequalities in COVID-19, pertussis and influenza vaccine uptake in pregnant women using the QResearch Primary Care Database in England (Wema Mtika - Oxford)</p>	<p>9.00 - 10.30 SESSION FOUR</p> <p>Prognostic, Diagnostic, and Monitoring Tools (2)</p> <p>Diagnosis of coeliac disease in children: A qualitative longitudinal study with parents (Christian Farrier - Oxford)</p> <p>Using fractional exhaled nitric oxide to guide clinical decision-making during routine asthma reviews: A qualitative interview study (Kay Wang - Southampton)</p> <p>STanding blood pressure and its Association with major adverse cardiovascular disease and aDverse events (STANDD): A systematic review (Osei Asibey Owusu - Exeter)</p> <p>Young onset diabetes poses a greater risk of end-stage renal disease than adverse cardiovascular events and stroke: Insights from UK Biobank (Debasish Kar - Plymouth)</p>	<p>9.00 - 10.30 SESSION FOUR</p> <p>Ways of Working in Primary Care (1)</p> <p>Technostress, technosuffering, and relational strain: A multi-method qualitative study of how remote and digital work affects staff in UK general practice (Francesca Dakin - Oxford)</p> <p>The remote assessment of breathlessness in calls to NHS 111 about COVID-19: A retrospective qualitative study (Saminah Shareef - Keele)</p> <p>Slipping through the net? How digital triage shapes access to care for patients in general practice (Sophie Spitters - Birmingham)</p> <p>“Going The Extra Mile”: Putting patient stories centre stage to examine relational general practitioner care, educate tomorrow’s doctors and imagine ways to mend the NHS (Alison Convey - Oxford)</p> <p>How practices make triage work (Sara Shaw - Oxford)</p>

10.30 - 11.00 Coffee Break and Poster Viewing (Arco Building)

11.00 - 11.45 Caroline Mitchell (Keele University): Evidence-biased medicine

11.50 - 13.00 SESSION FIVE

Inclusion and Involvement in Research

‘Hello Doctor’: Developing and trialing a collaborative and creative approach to PPI (Kayley McPherson - Oxford)

Representation matters: An ongoing exploration of equity in the SNAP2 trial (Lucy Goddard - Oxford)

Diversity and inclusion in primary care research: Lessons from three decentralised trials (Nicola Ivens - Cardiff)

Inclusion of under-served groups in trials: An audit at a UK primary care clinical trials unit (Rebekah Burrow – Oxford)

Creative conversations in PPI: Lessons learned from co-designing a game with underserved groups about the challenges of living with health conditions (Sian Holt – Southampton)

11.50 - 13.00 SESSION FIVE

Self-monitoring and management

What are the experiences of people with heart failure regarding participation in physical activity (The HAPPY study)? Development of a logic model (Alyson Huntley - Bristol)

Views on self-management interventions for Type 2 Diabetes Mellitus (T2DM) in African American patients: A systematic review of qualitative studies (Amna Afzal - Southampton)

Shazam for airways disease detection? Patient and clinician views and experiences of Smartphone app-based technologies for screening, diagnosing and monitoring airways disease (Helen Ashdown - Oxford)

Type 2 Diabetes Mellitus self-management among people of black African ethnic background in high-income countries: A systematic review of qualitative studies (Immaculate Okello Ajok - Southampton)

An evaluation of the implementation of a novel digital intervention for hypertension

11.50 - 13.00 SESSION FIVE

Treatment Choices

Cost-effectiveness of home-based COVID-19 treatments: Findings from the PRINCIPLE trial (May Ee Png - Oxford)

Prescribing memantine in general practice in England: A survey and interview study (Mary Carter - Exeter)

Real-world use of topical treatments for children with atopic eczema: A systematic review (Phuong Hua - Bristol)

Systematic review of randomised controlled trials of interventions to improve adherence to acne treatments (Taeko Becque - Southampton)

Experience of treatment choices for childhood acute upper respiratory tract infections: A qualitative study in China and UK (Zhang Xiaowmen - Southampton)

	<p>management: The Self-monitoring and management service evaluation in primary care (SHIP) study (Katherine Tucker - Oxford)</p>	
<p>13:00 - 14:00 Lunch – Dining Hall</p>		
<p>14.00 - 14.45 Third Plenary Speaker Session – Katherine Woolf (University College London)</p>		
<p>14.45 - 15.45 SESSION SIX</p> <p>Ways of Working in Primary Care (2)</p> <p>Effective complaint handling in general practice healthcare staff: A qualitative interview study and behaviour change wheel analysis (Jacqueline Harris - UCL)</p> <p>Implementing population health management in Primary Care Networks across an Integrated Care System (Julian Elston - Plymouth)</p> <p>Another lost tribe? When, how and why do neurodivergent GPs seek diagnosis? (Lucy-Jane Davis - Plymouth)</p> <p>Enhancing healthcare with compatibility-based matching (Melany Rabideau - United Health Group/ Optum)</p>	<p>14.45 - 15.45 SESSION SIX</p> <p>Multiple Long-Term Conditions and Polypharmacy (2)</p> <p>Patient experience of an intervention to deliver patient-centred polypharmacy medication reviews: A qualitative study (Barbara Caddick - Bristol)</p> <p>“I have my doubts about stopping’: Caregivers’ role in the decision to discontinue antidepressants in older adults (Ellen Van Leeuwen - Ghent)</p> <p>Co-designing an intervention for older adults with multiple long-term conditions, using changes in physical activities to predict decline (Ishbel Henderson - Oxford)</p>	<p>14.45 - 15.45 SESSION SIX</p> <p>Communicating with patients (2)</p> <p>Face-saving strategies in delivering weight loss advice: A conversation and discourse analysis study (Liliia Bespala - Oxford)</p> <p>Patients’ perceptions of primary care consultations: is empathy under threat? A nested qualitative study (Rachel Dewar-Haggart - Southampton)</p> <p>The documentation of prognostication in out-of-hours primary care consultations with terminal care patients: An analysis of case record data (Rebecca Anderson-Kittow – Oxford)</p>
<p>15.45 - 16.15 Closing session including prizes: Professor Sophie Park</p>		

16.15 Close of Conference
